LIGHTING SOLUTIONS

Multi-Industry Lighting Consultation & Sales

Riding Arenas & Rodeo Grounds

Arena Lighting:

Arena lighting needs to be bright & uniform enough for contestants and fans to see. Our LED upgrades add:

- ◆ Improved visual performance for contestants & judges
- ◆ Increased safety for spectators at the venue
- ◆ Elimination of shadows, resulting in safer performing areas for livestock and riders
- ◆ Better visibility, can meet broadcasting standards
- ◆ Instant ON / No restart delay after power loss
- ◆ Significant energy & maintenance savings

Why Work With Slatercom?

- ◆ Almost 20 years experience with LED lighting technology as a company
- ◆ Nationwide coverage
- ◆ Extensive lighting design skills & experience
- ◆ No cost on-site lighting audits, complete with photometric layout and quotation
- ◆ Over 100 distribution agreements with leading LED manufacturers resulting in multiple sports fixture options
- ◆ Assistance with local utility incentive programs when available
- ◆ Installation flexibility. Slatercom can offer turnkey installation services and is happy to partner with any local preferred electrician
- ◆ American made product options

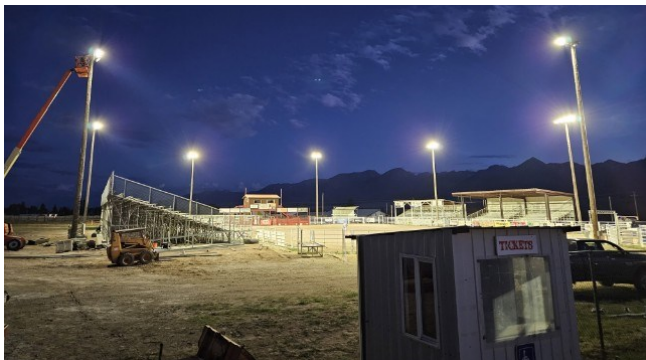

MADE IN USA

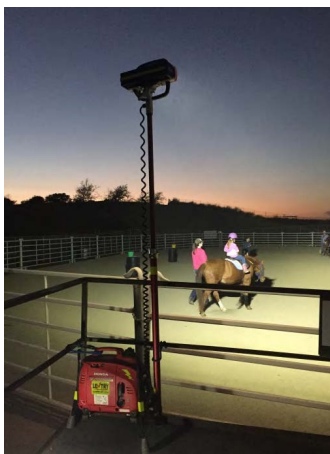

Multiple Pole Options

Slatercom offers multiple pole options including treated wood and steel poles. Slatercom also can provide a pole testing service through a subcontractor agreement to determine if existing poles are reusable.

Portable / Temporary Lighting:

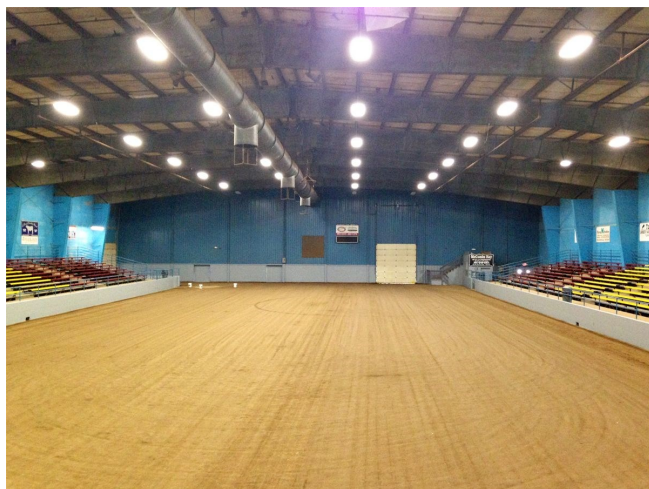

Slatercom has multiple portable and temporary lighting systems perfect for parking areas around the grounds that do not require permanent lighting.

Additional Facility Lighting

With over 100 distribution agreements with leading LED manufacturers, Slatercom has multiple options for rodeo and fairground facility lighting. Benefits of our retrofits or new LED fixtures include:

- ◆ Tightly sealed fixture options protect components against dust and bug build-up, along with water from animal wash downs or stormy weather
- ◆ LED technology saves approximately 65% electricity over MH or HPS technology .
- ◆ Our LED lights are brighter and thus enhance safety & security.
- ◆ Upgrading to quality LED fixtures virtually eliminates maintenance
- ◆ Indoor, outdoor and stage lighting options for fair-ground events and concert venues.

Solar Options:

Slatercom has multiple solar options for areas where power is not available.
