

## ADDITIONAL LED LIGHTING

While Slatercom specializes and excels in LED sports field lighting, we also complete hundreds of regular LED retrofits a year.

Slatercom partners with your local utility to get you any available rebates to upgrade your school's facility lighting. Slatercom has done several complete school LED upgrades and can provide references from existing customers. For applications such as gymnasiums, we can provide photometric layouts to ensure your new lighting meets NFHS's lighting standards.

## WHO WE ARE

Slatercom Lighting Solutions is a wholesale LED lighting distributor with over 100 agreements with LED manufacturers. In addition, Slatercom assists in the design and specification of LED lighting systems. This includes sports field lighting, gymnasiums, and more. We offer our customers with retrofit or new lighting solutions, complete with photometric layouts and commissioning assistance.

With over 15 years of LED lighting experience, Slatercom has the knowledge and expertise to make sure your lighting gets done correctly and cost effectively.

- \* Efficacy up to 135 lm/w
- \* 0-10V dimming
- \* Wireless control system available
- \* 10 Year warranty

## Pole Options & Scoreboards

To ensure our customer's needs are covered, Slatercom has developed relationships with multiple pole manufacturers to offer our customers a variety of pole options. These options include steel poles, concrete poles, and new wooden poles. We are also able to retrofit an existing pole if approved by your local engineer. Slatercom is able to specify the right pole to correlate with your lighting system.

In addition to our sports lighting solutions, Slatercom is proud to offer its customers LED scoreboards and readerboards through Spectrum Scoreboards. Advantages of using our scoreboards include LED custom lettering, 10 year warranties, and industry-leading delivery times and pricing.
